

PROSPER THROUGH COMPLIANCE

A comprehensive range of environmental consultancy services providing clear, practical support and guidance

OUR APPROACH

■ A highly skilled team

We employ and support a team of highly skilled, knowledgeable and capable environmental consultants with broad expertise across a wide range of disciplines.

■ High quality advice and documentation

We continually provide high quality advice and documentation that exceed the standards required by legislation, guidance and our clients' expectations.

■ Building clear understanding

We develop a clear understanding of our clients' business and processes, enabling us to provide sound, commercially astute advice.

■ Working closely with our clients

We pride ourselves on developing open, long term relationships based on trust and integrity that allow us to seamlessly integrate with our clients' business and be seen as a vital member of their team.

■ Practical experience

The operational arm of our Group gives our consultants an in-depth insight into the practical requirements and constraints of a functioning business.

■ Enabling happy employees to provide the best service

We provide an enjoyable and productive workplace that encourages creativity, exchange of knowledge, and openness in order to be able to provide the best service to our clients.

■ Growing by recommendation

We seek to maintain our excellent reputation, sustainable growth and stay true to our principles by continuing to create high client satisfaction and gain new business largely by recommendation.

■ Extending our team

We understand that we can't be masters of all so where we look for support from other like-minded individuals and organisations to enhance the services we provide.

COMPREHENSIVE RANGE OF SERVICES

Wiser Environment provides a comprehensive range of services to a wide public and private sector client base including waste management, agriculture, facilities management, property development, manufacturing and industry, small and medium enterprises. Our services include:

Environmental permits and consents

Helping businesses achieve relevant permits, consents and exemptions; removing the burden of dealing with regulatory bodies and seeing applications through to conclusion

Planning

Supporting at all stages of waste development projects to help ensure a smooth and efficient planning process and a positive outcome

Management systems

Developing and implementing quality, environmental, energy, health & safety and integrated management systems to international standards

Environmental training

A WAMITAB approved assessment centre providing assessment and training solutions for individuals and businesses

Fire prevention plans

Preparing plans for a wide range of waste management facilities helping to protect businesses, minimise the risk of fires and gain signed off by the Environment Agency

Waste and resource management

Helping operators to meet end of waste criteria and quality protocols; assisting businesses in identifying how to improve waste practices, meet legislation and reduce costs

Air dispersion modelling

Modelling for air quality and odour assessments required in planning and environmental permit applications, ongoing compliance and best practice

COMPREHENSIVE RANGE OF SERVICES

Contaminated land and land quality

Providing a full range of geotechnical and geo-environmental land assessment services including investigation, remediation and redevelopment of potentially contaminated sites across the UK

Workplace exposure monitoring

Helping businesses protect employees from hazardous substances in the workplace and stay compliant with legal requirements

Monitoring and sampling

Efficient, reliable environmental monitoring services that meet all regulatory requirements, covering soil, water, waste, noise and odour

QHSE business support

Offering a temporary extra pair of hands or providing expertise lacking in-house

Carbon and energy management

Helping businesses to improve energy efficiency, reduce energy consumption or carbon output, save money and comply with legislation

Health and safety

Providing advice, guidance and support to improve safety and health management and meet legislative requirements

Environmental impact assessment

Ensuring all environmental impacts of proposed projects are considered and mitigated against, prior to the submission of planning applications

Auditing

Environmental, health & safety, compliance and energy auditing services to review and identify areas of high risk and potential non-compliance

Compliance and risk

Helping organisations meet the requirements of legislation, codes of practice and other standards; ensuring they remain compliant and environmentally responsible

ABOUT WISER ENVIRONMENT

What our customers have to say

Wiser Environment's advice has been invaluable. Wiser has a thorough understanding of waste legislation and the permit application process and has provided helpful and friendly answers to our questions

Chief Executive Officer, bio-bean

Wiser Environment successfully obtained a bespoke environment permit for our catalytic converter recycling facility to comply with the change in legislation. They managed the entire process: from the initial discussions with the Environment Agency, preparing and submitting the application pack, to providing guidance and practical support to us along the way

Managing Director, Hensel Recycling (UK) Ltd

Wiser Environment has provided a friendly and knowledgeable service that has helped to improve our legal compliance and will continue to do so in the future. We are delighted we have achieved ISO14001 and highly recommend Wiser Environment

Quality and Environmental Manager, Edwards Recycling
